Drug and Alcohol Abuse Prevention Program

I. PURPOSE

The purpose of this policy and program is to identify College of Saint Mary as a drug-free workplace, and to outline a continuing program of drug-free awareness for all employees and students.

II. POLICY

College of Saint Mary is committed to creating for its students, faculty and staff an environment in which the misuse of alcohol and drugs is minimized, which encourages moderation, safety and individual accountability, and which provides an atmosphere free of coercion and peer pressure to abuse alcohol or to use unlawful drugs.

Controlled Substances

Under the Federal Drug-Free Workplace Act the College will not tolerate the illegal use of drugs at any location where College business is conducted. The term "controlled substance" shall mean any substance, the possession and/or consumption of which is prohibited by the criminal law of the State of Nebraska. A list of these substances may be found at Section 28-405 of the Nebraska Statutes.

All students, faculty and staff are prohibited from unlawfully manufacturing, distributing, dispensing, possessing, or using any substances illegal or controlled in the workplace or on the college campus.

Employees – Staff and Faculty

Any employee violating the above policy or an employee, who the College, based upon a reasonable suspicion, believes is under the influence of a controlled substance, is subject to discipline, up to and including termination. A reasonable suspicion of being under the influence shall be based upon behavioral observations including, without limitation, erratic or violent behavior, paranoia, sudden outbursts of anger, agitation, hallucinations, depression, excessive absenteeism, excessive tardiness, unacceptable interrelationships with employees or students or decreased performance. As an alternative to, or in conjunction with, other disciplinary actions, The College may, at its sole discretion, offer an employee the opportunity to successfully complete a drug abuse program sponsored by an approved private or governmental institution.

The College provides employees with an Employee Assistance Program (EAP) through Alegent Health. The EAP has an education program for all employees on the dangers of drug abuse in the workplace.

To assist employees in overcoming drug abuse problems, the College may offer the following rehabilitative help:
• Medical benefits for substance-abuse treatment
• Information about community resources for assessment and treatment
• Employee Assistance Program

In addition, the College will provide supervisory training to assist in identifying and addressing illegal drug use by employees.

Any employee convicted of violating a criminal drug statute in this workplace must inform the College of such conviction (including pleas of guilty and nolo contendere) within five days of the conviction occurring. Failure to inform the College subjects the employee to disciplinary action, up to and including termination. By law, Human Resources will notify the federal/state contracting officer within 10 days of receiving such notice from an employee or otherwise receiving notice of such conviction.

If an employee is convicted of violating a criminal drug statute in the workplace the College reserves the right to offer participation in an approved rehabilitation or drug abuse assistance program as an alternative to discipline. If such a program is accepted by the employee, then the employee must satisfactorily participate in the program as a condition of continued employment.

**Students**

Any student violating the above policy is subject to discipline, ranging from verbal reprimand to expulsion and referral for prosecution as outlined in the Student Handbook – Code of Conduct.

The College provides students with a Counseling Assistance Program (CAP) through Alegent Health. CAP has an education program for all students on the dangers of drug abuse in the workplace.

**Alcohol**

College of Saint Mary does not encourage consumption of alcoholic beverages, nor does it promote the use or abuse of them and adheres to the laws of the state of Nebraska.

**Employee**

College of Saint Mary will not reimburse employees for the cost of alcoholic beverages consumed while the employee is traveling on College-related business or otherwise engaged in College-related business, unless approved by the President. Alcohol may not be served at a College function, on or off campus, unless approved by the President.

The College prohibits employees from consuming any alcohol when such employee is traveling with students or is serving as a chaperone for students at a College-related event. Special
exceptions may be made by the president’s office for on campus events involving the public and select groups of students (e.g. athletic banquets, scholarship receptions with donors).

The College prohibits employees from operating a College motor vehicle while in the possession of an open container of alcohol, and/or while under the influence of alcohol or any other illegally intoxicating substance. Such behavior may result in immediate termination from the College, as well as criminal sanctions.

Any employee violating the above policy or an employee, who the College, based upon a reasonable suspicion, believes is under the influence of a controlled substance, is subject to discipline, up to and including termination. A reasonable suspicion of being under the influence shall be based upon behavioral observations including, without limitation, slurred speech, unsteady gait, staggering, alcohol on the breath, excessive absenteeism, excessive tardiness, unacceptable interrelationships with employees or students or decreased performance. As an alternative to, or in conjunction with, other disciplinary actions, The College may, at its sole discretion, offer an employee the opportunity to successfully complete a drug-abuse and/or alcohol abuse program sponsored by an approved private or governmental institution.

Student

College of Saint Mary does not permit students under the age of 21 to possess or consume alcoholic beverages on campus. The following policies are in effect:

1. Students 21 years of age or older may consume alcohol in their own residence hall room, or the room of another resident who is 21 years of age or older, with no more than five individuals present.
2. Students 21 years of age or older may not possess or consume alcohol in the presence of minors (under 21). Students 21 years of age or older are strictly forbidden from offering, providing, or selling alcohol to minors.
3. Consumption of alcohol and/or possession of open containers in public areas, including parking lots and residence hall lounges, are not permitted on campus. Exceptions will be made for events sponsored by the Student Senate, RHC or others where the coordinator of Student Leadership & Organizations grants specific permission for the event. Provisions for compliance with the legal age, safety, security, and availability of food and alternative beverages will be considered in determining approval. For these events, students must obtain a third-party vendor and there must be a separate section where only those students 21 years of age or older who wish to consume alcohol are allowed.
4. Kegs, beer balls, and all other common bulk alcohol containers are not permitted on campus.
5. Any student who becomes intoxicated or who, while under the influence of alcohol, acts in a manner detrimental to her own good name or the good name of the College, will be subject to disciplinary sanctions, including potential notification of parents and possible expulsion. This expectation exists regardless of the location of the behavior (on- or off-campus), or whether the student is participating in college-related or sponsored activities.
Parents may be notified if it is anticipated that a student infraction may result in disciplinary probation, removal, suspension and/or expulsion, if the student is: (1) age 18 or younger, and/or (2) financially dependent on her parent(s) (as defined by the Federal government for income tax purposes), or (3) when the student is in violation of law or policy governing the use of alcohol or drugs, if the student is under 21.

III. PROGRAM

The College will maintain an ongoing drug-free awareness program that will aim to educate employees about the dangers of drug abuse in the workplace, the College’s drug-free workplace policy, the penalties that may be imposed for drug abuse violations, and the availability of counseling, rehabilitation, and employee-assistance services. The program will include:

- Drug and Alcohol Abuse Prevention Program will be made available to all students, faculty and staff during the month of September of each academic year.
- The program and policy will be reviewed and amended or revised in accordance with our experience and with changes in applicable local, state, or federal laws and regulations.

V. HEALTH RISKS

Controlled Substances

Narcotics such as opium, morphine, and heroin can cause euphoria, drowsiness, respiratory depression, constricted pupils, and nausea. The symptoms of an overdose of narcotics are slow and shallow breathing, clammy skin, convulsions, coma, and possible death. Persons experiencing withdrawal from addiction to narcotics can experience watery eyes, runny nose, yawning, loss of appetite, irritability, tremors, panic, cramps, nausea, chills, and sweating.
Depressants such as barbiturates and Quaaludes can cause slurred speech, disorientation, and drunken behavior. An overdose of a depressant results in shallow respiration, clammy skin, dilated pupils, weak and rapid pulse, coma, and possible death. Withdrawal symptoms include anxiety, insomnia, tremors, delirium, convulsions, and possible death.

Stimulants such as cocaine and crack can cause increased alertness of euphoria, and increased pulse rate and blood pressure, insomnia, and loss of appetite. An overdose of stimulants results in agitation, and increase in body temperature, hallucinations, convulsions, and possible death. Withdrawal symptoms include apathy, long periods of sleep, irritability, depression, and/or disorientation.

Hallucinogens such as LSD and amphetamines cause illusions and hallucinations and poor perception of time and distance. The effects of an overdose include psychosis and possible death.

Marijuana and hashish can cause euphoria, increased appetite, relaxed inhibitions, and disoriented behavior. The effects of an overdose include fatigue, paranoia, and possible psychosis. Withdrawal symptoms include insomnia, hyperactivity, and decreased appetite.

**Prescription Drugs**

These drugs are not illicit if they are used in accordance with a physician's prescription. However, sharing prescription medication with someone else is illegal and could be very harmful. Using prescription drugs in any manner other than the prescribed method can also be harmful.

**Alcohol**

Alcohol consumption causes a number of marked changes in behavior. Even low doses significantly impair the judgment and coordination required to drive a car safely, increasing the likelihood that the driver will be involved in an accident. Low to moderate doses of alcohol cause marked impairments in higher mental functions, severely altering a person's ability to learn and remember information. Very high doses cause respiratory depression and death. If combined with other depressants of the central nervous system, much lower doses of alcohol will produce the effects just described.

Repeated use of alcohol can lead to dependence. Sudden cessation of alcohol intake is likely to produce withdrawal symptoms, including severe anxiety, tremors, hallucinations, and convulsions. Alcohol withdrawal can be life threatening. Long-term consumption of large quantities of alcohol, particularly when combined with poor nutrition, can also lead to permanent damage to vital organs such as the brain and liver.

Mothers who drink alcohol during pregnancy may give birth to infants with fetal alcohol syndrome. These infants have irreversible physical abnormalities and mental retardation. In
addition, research indicates that children of alcoholic parents are at greater risk than other youngsters of becoming alcoholics.
